WHY SUPER BIRD?

About Super Bird Creations

Super Bird Creations, inspired by a lifelong love of pet birds, was founded in 1992 with the goal of creating safe, fun, and stimulating toys for pet birds.

Since its inception, Super Bird Creations has grown to be one of the largest and most respected manufacturers of bird toys in the U.S.

Making this possible is a dedicated workforce of over 40 employees based in beautiful Colorado. Our formula for success has been simple, an unwavering commitment to quality, innovative design, and integrity.

Avian Vet Approved

Super Bird Creations bird toys are recognized by avian experts as some of the safest available on the market.

We take great pride in our 30+ year track history of creating safe enrichment for parrots.

Our bird toys are recommended, distributed, and even purchased by avian vets for their own birds!

Bird-Safety is our #1 Goal

Super Bird Creations responsibly sources the materials used in our products to ensure their quality and safety.

Our designs are further evaluated for any potential risks and field tested by our own precious flock.

As with kids, no toy is 100% safe for all birds. Use common sense and supervise your bird when you first give him a new toy and always be sure to purchase toys that are properly sized for your bird.

We Love to Make Birds Happy!

Our primary desire is to enrich the lives of pet birds by designing "Playthings with a Purpose". As such, we offer a variety of products to address the hardwired instinctual needs of captive birds to chew, forage and preen.

A diverse selection of stimulating colors, textures, shapes, and moveable parts is incorporated into our designs to make them of maximum interest to birds and their owners.

Proudly Manufacturing "Parrot Playthings with a Purpose" since 1992!
